

**EXHIBIT A -- Resolution 1748**

Based on recovering the cost of adding capacity, upgrading and operating the Wastewater Treatment Plant, the Extra Strength Charges (ESC) contained in Resolution 1722 (BOD or TSS concentrations greater than 280 mg/L BOD/TSS) would be modified downward to:

	4/1/2018	7/1/2019	7/1/2020	7/1/2021
Price per 1,000 gallons of sewage--TSS over 2.5 lbs.	\$ 520.00	\$ 540.80	\$ 562.43	\$ 584.93
Price per 1,000 gallons of sewage--BOD over 2.5 lbs.	\$ 832.00	\$ 865.28	\$ 899.89	\$ 935.89

Monthly ESCs will be based on median concentration and mean average flow measurement of all data collected during testing periods. BOD will be based on a BOD:COD ratio of 0.50 and on all actual COD tests performed during the testing period.
