Hello Jamy –

Local governments and office environments don't fall in the definition of "business" as defined by the Oregon Health Authority. Is this what you were looking at?

<https://sharedsystems.dhsoha.state.or.us/DHSForms/Served/le2288K.pdf>

It's still up to the City to decide whether and under what circumstances its employees must wear face coverings.

Let me know if you have any questions after reading this.

Tamara

Good Morning,

PW's Director and I are going through the Oregon Health Authority rulings. It's stating that all Business's are required to have their employees wear a mask. Their definition of

business doesn't state Government Agency's. I have not required any of my employees to wear a mask. We do have plexi glass up for any public contact. But, PW is worried also about field employees. Can you give me some insight on this? Are we required or not?
