Hi Paul,

Thanks for meeting with me today. I confirmed that you can run a report that shows all the searches that have been done, with the date, time and username. Also, when you click on it, it shows the search results. This is exactly what you were needing from what I understand.

Pricing to a one time \$500 set up fee to provision the archive for you and the annual cost for up to 10 phones on Verizon would be \$2,280. As you are only utilizing 7 of those, you may want to consider adding your social media platforms like Facebook, Instagram or Twitter at no additional cost to you.

I will look forward to speaking to you again,

Carrie
