RECEIVED

DEC 06 2013

LOYD NEAL
County Judge, Nueces County, Texas

By 

The Honorable Judge Loyd Neal,

The purpose of this letter is to inform you of my interest to be reappointed by the Nueces County Commissioner's Court as a Corpus Christi Port Commissioner. Since taking office, I have been actively engaged as a member of the Commission. Currently, I am serving on the Port Security Committee and as the Port's designee to the Hispanic Chamber of Commerce. In addition, I am well versed as to the Port's strategic planning both from an infrastructure, security and budgetary standpoint. In all capacities, I have enjoyed my role as a member and believe myself to be a strong contributor to this Commission. Recently, I had the opportunity to serve on the Eagleford Shale Conference Committee, which produced a three-day conference highlighting the Port and its increased activity. I served as a guest speaker, moderator and organizer of several events, including forums on Women in Energy and Foreign Direct Investment to the Port.

It is an honor and privilege to serve in such a vital position to our county. In these exciting times of economic boom, it is important to have individuals who are willing to dedicate the time needed to study and dissect the issues that surround the public policies that shape our Port and its activities and promote economic growth. I have taken the time to meet with industry and their representatives as well as members of the public since taking office to learn about the amazing projects that are being undertaken and how they affect our Port community. I would like to continue in this realm of public service and ask for your support for reappointment. If I can answer any questions you might have regarding my qualifications to continue as Port Commissioner, please do not hesitate to contact me at 361 658-8209 or by email at bcanales1@mac.com. In addition, I would be pleased to meet with you to discuss any Port related issues that are in the public domain.

The Port of Corpus Christi is at the epicenter of an historic time of energy independence in Texas, and in transportation improvements in channel, rail and bridge and I am grateful to be a part of this history.

Sincerely,

Barbara Canales
