RE: Agreement for Microfilm Duplication

Dear Hon. Kara Sands,

This quote addresses the duplication of 348 rolls of 16 mm Diazo and Silver microfilm that are subject to Vinegar Syndrome (VS) degradation. Duplication services can include film cleaning, creation of duplicate silver film, boxing, and labeling. All services will be completed by Kofile Technologies, Inc. (Kofile). All pricing is good for 90 days from the date of this quote.

PROJECT UNDERSTANDING

This original film is the best rendering of the recorded documents in the County's possession. This project provides the opportunity to produce high quality duplicates and to copy rolls with significant film base distortion. It is crucial to first identify the stage of deterioration present and execute the project with the best technical equipment available. This ensures that any problems are safely and effectively resolved. Kofile understands the challenges this film presents and will produce a product that meets the County's expectations.

Kofile provides the Best Value for this project. We work closely with Eastman Park Micrographics, Inc. (EPM) formerly Eastman Kodak Company, as our parent company owns and operates it. With Kofile, Nueces County has access to the world's foremost microfilm experts, leaders, technology, and machines. All microfilming procedures are archival quality and produced according to ANSI Standards. Our history in providing services to government and meeting precise records management requirements is exceptional.

CONDITION ASSESSMENT

This collection is in very poor condition. The microfilm rolls show evidence of Vinegar Syndrome (VS) degradation. VS is the term for a chemical reaction that occurs in cellulose acetate base film. The name is derived from the release of acid (producing a vinegar odor) resulting when the acetyl group breaks away from the molecular chains of cellulose acetate. Once started, VS can

be slowed, but not stopped. The rate of deterioration is increased by high temperatures, humidity, and atmospheric acid.

ARCHIVAL MICROFILM DUPLICATION

Kofile will duplicate the film onto 16 mm Silver Microfilm. All microfilming procedures are archival quality and produced according to ANSI Standards.

FACILITY SECURITY & ARCHIVAL MEDIA VAULT STORAGE

Nueces County's microfilming and storage services are completed at the Kofile facility located at 6300 Cedar Springs Road, Dallas, TX 75235.

The Kofile facility is F5 Disaster Resistant according to an architectural assessment performed by Tanner Consulting, January 2010. Our entire national laboratory is contained within a fire resistant brick and concrete building—which contains structural steel support members, fire rated walls, ceiling, and flooring. There are three vault areas protected by secure and fire resistant vault doors. The facility is located above flood plains, and sited in an area unlikely to suffer hurricane, tornado, or other cataclysmic natural disaster.

Kofile has a 24/7 manned on-site security person in combination with electronic surveillance. A state of the art security system protects the entire building. In addition to the Motion Detector Security System, Kofile follows rigorous end of day closing and lock-down inspection protocol.

The Kofile facility is equipped with 24-hour temperature and Relative Humidity (RH) controls throughout the building. All work areas for original files meet the archival climate control standards as supported by the Texas State Library and Archives Commission. Collections are never subject to ultraviolet (UV) light. Kofile does not have any issues with pest control. The building is regularly maintained. Food or drinks are not permitted in the work areas by anyone or for any reason.

Three vaults equipped for the specialized storage of various archival media are onsite. One vault is specifically designed for microfilm storage. Level 5 secure and fire resistant vault doors with at least a 4-Hour UL Rating of at least 350 protect each. Each vault is regulated by its

own independent HVAC system with monitors humidity, temperature, and controls airborne particulate (monitored by analog loggers). Kofile actively monitors record storage areas for micro-organic growth.

Kofile provides storage for microfilm, microfiche, and other types of data. Kofile randomly performs spot tests to safeguard against contagious contaminations, such as Vinegar Syndrome, mold, mildew, and/or Redox. Acetate Base Film is separated from Polyester Base Film and stored in separate storage boxes as recommended by EPM to eliminate contamination. Kofile can retrieve microfilm/data and transmit requested data to customers. The customer owns all of the stored microfilm. Kofile will not sell or in any way distribute the microfilm/data.

TERM OF AGREEMENT

The initial term of this Agreement shall commence on the date of execution and shall continue for one year.

PAYMENT

The County agrees to pay Kofile's undisputed invoices in full within 30 days of the date of invoice. Any and all charges may be adjusted by Kofile after the initial term of this agreement upon ninety (90) days prior written notice to the County.

OWNERSHIP OF COUNTY RECORDS

All of the records shall remain the property of the Nueces County. The records shall not be used by Kofile other than in connection with providing the Services pursuant to this Agreement, or disclosed, sold, assigned, leased or otherwise provided to third parties by Kofile, or commercially exploited by or on behalf of Kofile, its employees, officers, agents, invitees, or assigns, in any respect. Kofile shall not destroy any Records.

CONFIDENTIALITY

Kofile shall keep the microfilm and information on microfilm confidential ("Information") and will not, at any time, directly or indirectly, use or disclose the Information except in performing services requested by County. Kofile may disclose Confidential Data if such disclosure is required by applicable law, rule or regulation or if in response to an order or request from a court, or other governmental agency or regulatory commission to disclose such Confidential Data; provided, however, that before making such disclosure, the Kofile shall first give the County prompt and reasonable notice of such request to enable the County the opportunity to object to the order or request, and/or to obtain, at its sole expense, a protective order covering the Confidential Data to be disclosed.

Kofile shall (i) maintain strict security measures which will prevent disclosure of the information to any third party, (ii) limit the number of its employees who have access to such Information, and (iii) inform its employees of their obligation to maintain strict confidentiality of the Information.

SYSTEM SECURITY

Kofile works in a secured, directory-based environment. Kofile employees are subjected to background checks and extensive interviews. Before they are allowed to work with confidential records, technicians must graduate a series of work-effort tiers.

LIMITATION OF LIABILITY

Kofile's liability, if any, to the County for any loss or damage to the stored data, regardless of the cause thereof, is expressly and solely limited to the actual cost of a new replacement item of the same type and quality as the lost or damaged item. Kofile will not be liable for incidental, special, consequential or any other type of damages, even if advised of the possibility of such damages. The limitation of Kofile's liability will apply regardless of the form of action whether in law or in equity, or whether in contract or in tort, including negligence. Kofile shall not be liable for any damages due to causes beyond its control including, but not limited to, acts of God.

NOTICES

Any notices or communications required or permitted to be delivered hereunder must be in writing and deemed to be delivered (i) upon receipt if delivered personally or (ii) upon deposit in the United States Mail, certified, return receipt requested, postage prepaid, addressed to Kofile or the County, as the case may be, or (iii) upon receipt of a facsimile transmission.

GOVERNING LAW AND VENUE

This Agreement and the obligations and understanding of the parties hereunder will be determined to be performable in Corpus Christi, Nueces County, Texas. This Agreement shall be governed by, enforced under and construed in accordance with the laws of the State of Texas without regard to any conflict-of-laws principles. Any court action brought under this Agreement must be brought in Nueces County, Texas.

TERMINATION FOR CONVENIENCE

Nueces County may terminate storage services being performed by Kofile under this Agreement, in whole or in part, for convenience, by delivering to Kofile written notice of termination at least thirty (30) days in advance of the end of the then current term under the Agreement, specifying the extent of termination of storage services and the effective date. In such event, the County's liability for payment to Kofile shall be limited to the contract price for all services delivered to and accepted by the County prior to the effective date of termination of such services.

ENTIRE AGREEMENT

This Agreement embodies the entire agreement and understanding between the parties with respect to the subject matter hereof and supersedes any prior agreements or understandings between the parties relating to the subject matter hereof.

**Splices occur when multiple volumes are combined onto one consecutive roll of film. Similar projects commonly have anywhere from 3-4 to several dozen per 100' roll. Depending on the original manufacturer of the microfilm, splices may have resulted in crooked images or weak film. In instances where splices are crooked or damaged, Kofile will repair the splice prior to duplication.*
