Report

Re: Port Aransas Economic Development Grant Funding

Dear Judge Neal:

Attached is the follow up on a letter dated August 20, 2018 regarding the \$4,000 grant funds the Port Aransas Chamber of Commerce received from the County.

These most welcome funds are put to good use in the area of Economic development and the past year we utilized these funds as part of an in-depth study for a major job and tourism producing project – Convention Center & Hotel. This study has now produced the final RFP that is in the closing stages of submission. This project is expected to produce over 100 new jobs and drive economic impact once opened by over \$20-\$50 million annually..

We very much appreciate your interest in our community and support of our efforts.

Sincerely

Jeffrey Hentz
