P2 Emulsions

Service. Performance. Commitment.

Date: August 28, 2020

To Nueces County, Texas, please accept this written certification that all products listed below are in accordance with the State of Texas Sole Source requirements and are made to the exact specifications and proprietary formulas of P Squared Emulsion Plants LLC. Our proprietary products fulfill the TGA formal definition of “a confidential formulation usually containing two or more ingredients and about which information is not in the public domain” and of such products P Squared Emulsion Plants LLC is the only manufacturer and distributor.

“P2 Road Stabilizer”

Our road base stabilizing asphalt emulsion is easy and safe to use, incorporates with your existing soil or base and eliminates the need for additional, costly aggregate, lime, cement or other base additives. P2 Stabilizer increases base density and hardness while maintaining the asphalt’s characteristics of flexibility and waterproofing.

“P2 Rejuvenator”

Our P2 Rejuvenator is the perfect product to rejuvenate old asphalt roads, RAP and other millings. A one-time application provides a completely rehabilitated and rejuvenated road base.

“P2 ROC”

The perfect product to seal, protect and give your existing road surfaces a fresh, black look. Our “Road Over Coat” has proven over and over to lock down single course chip seals as well as provide customers a uniform, quick drying, affordable road surfacing solution.

“CWE-2-No Bleed Chip Seal”

Our unique chip seal formula exhibits superior performance when compared with CRS-2 and can be applied in a broader range of temperatures (10-20 degrees below other products). Coupled with it’s no bleed properties in extreme summer temperatures, our CWE-2 is truly a one-of-a-kind product.

“CWP – Pothole Patch”

This asphalt emulsion formula was specifically designed to work in ALL patch machines, ALL year round with the exact same results. Smooth consistency, no bleed finish and extremely low clog rates make our CWP a customer favorite.

“P2 Prime Concentrate”

Here at P2 we have several proprietary “ready-to-use” formulas that include prime, tack and dust control applications. Based on customer needs and dilution rates, we have something for literally every road across the state of Texas.

**All P Squared Emulsion Plants LLC proprietary products fulfill the formal requirements found in Texas Local Government Codes regarding county purchasing, Section 262.024.7.A. (Available upon request)

**All P Squared Emulsion Plants LLC proprietary products are fully TCEQ and EPA compliant
