RE: Nueces County Commissioner Court

The Coastal Bend Wellness Foundation received \$1,000 from Nueces County Commissioner Court to implement community services.

Coastal Bend Wellness Foundation used funds for Project Turnaround, a youth and family substance abuse prevention program that provides education services to adolescents who are at risk for substance abuse. The funds were used to meet state required match.

Due to COVID-19, face-to-face activities have not been possible; however, Project Turnaround has developed creative alternative activities to provide prevention programming. Project Turnaround developed an online presence, using multiple platforms, such as TIK TOK, Facebook, Facebook Live, and Instagram, in order to provide stay-at home alternative activities. Additionally, Project Turnaround participated in two school-based Drive Through events, providing educational materials and community resources for families. Project Turnaround hosted a drive though medication take back event to encourage community members to turn in unused prescription medications and self-disposable medication bags.

Sincerely,

Bill Hoelscher  
Chief Executive Director
