Agency Report*

\$1,500 - Commissioner Oct 4

During the course of Fiscal Year 2019-2020, HELP was only able to take 59 students on 6 trips before we were shut down by Covid.

Highlights of those trips include:

On November 20, we took a group of 15 students to MMR and Turner to learn about industrial careers.

On December 17, a group of West Oso students toured Spohn Shoreline, to determine if they might enjoy one of the many career paths in medicine. They put on PPE and toured various departments in the hospital, including an operating room. They also received instruction on bandaging.

Hammons Education Leadership Programs, Inc.

How can you find the job of your dreams...if you don't even know it exists?

JJC students got to meet Sheriff Hooper during a tour of the Nueces County offices on January 22. They were also able to tour Halo Flight and the Coast Guard on February 27.

These are just a few examples of the trips we have taken with students each month. County funds were spent on gas, food on trips, and wages for our Trip Coordinator and photographer. Unfortunately, when Covid hit, our trips (as well as everything else) were shut down. We have been working since then to retool our programs for online presentations, recording new, longer videos that include a tour and interviews with personnel.

Thank you so much for your financial assistance, as we HELP the youth of Nueces County.
