Re: FY19/20 Outside Agency Reports

Dear Commissioners,

The Nueces County Sheriff Officers' Association has been helping different groups throughout the county for over twenty-five years. It is our goal to continue helping as many groups as possible. We would like to thank the Commissioner's Court for helping the NCSOA accomplish our goals this year by providing us with some much appreciated funding.

This year, like in years past we helped the Corpus Christi Youth Football League "CCYFL" with field improvements to the grounds that enhance the safety of the kids. We also sponsored a junior varsity team, which helps a great number of under privileged kids that otherwise would not be able to play football. We feel it is very important for these kids to start developing strong leadership and team building skills, all while getting to interact with some of Nueces County's Finest. After the last game we take the kids out to eat, which means a lot to them.

During this past Christmas, our organization was able to help the Miramar Head Start which consists of two classrooms and about 35 children. We were able to buy the kids toys so they will have something for Christmas as these are all low income families, but most importantly we bought supplies for their classrooms to help educate the kids. This allows the kids to have a positive interaction with County Law Enforcement at a very young age, and most importantly it will leave a positive image in their lives.

Our Association is still currently funded by voluntary dues deductions from County Law Enforcement Officers, we greatly appreciate the help of the Commissioner's Court to help us with our mission.

Sincerely,

Jose A. Gonzalez
President, NCSOA
